## Who we are?

Global EDGE was born from the desire to make available to companies and industries our multidimensional and multifaceted business know-how. With more than 40 years of cumulative experience in the field of telecoms, energy and tertiary services (finance and development strategy). We create solutions in a constantly changing world. Global EDGE now has 6 branches operating in different sectors, including technology, financial intermediation, storage and distribution of petroleum products, import-export, restructuring and strategic support and other high value added services.

Our mastery of processes and of the ecosystem (of the environment) has enabled us to create added value and to position ourselves as a pioneer in a transversal market with a strong economic impact. This ecosystem continues to develop through the integration and interaction between the different branches in the group. To streamline our international operational processes, we are open to interact in the world's major decision-making and transit centers. The commitment of our employees as well as our strategic partnership is behind the success of the group and the synergy between its various branches.

# Our Vision

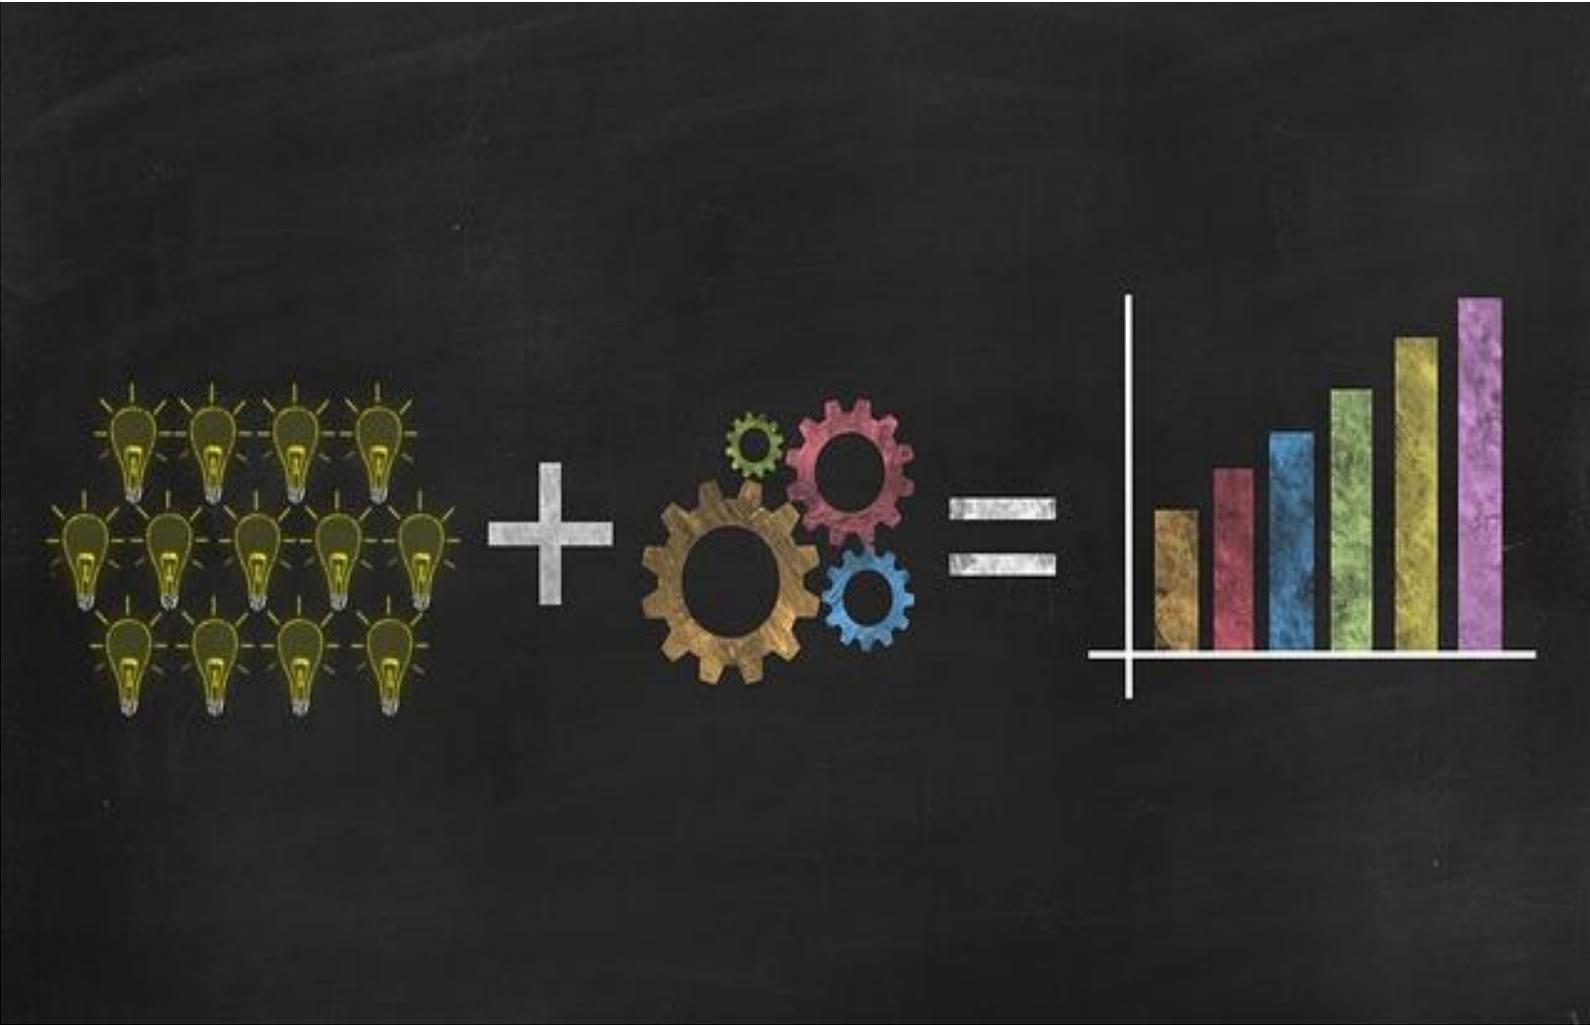

Build a strong economic fabric for a sustained African emergence by relying on autonomous & sustainable companies.

# Our Mission

Create an ecosystem within the company stimulating a controlled growth of resources.

# Our Values

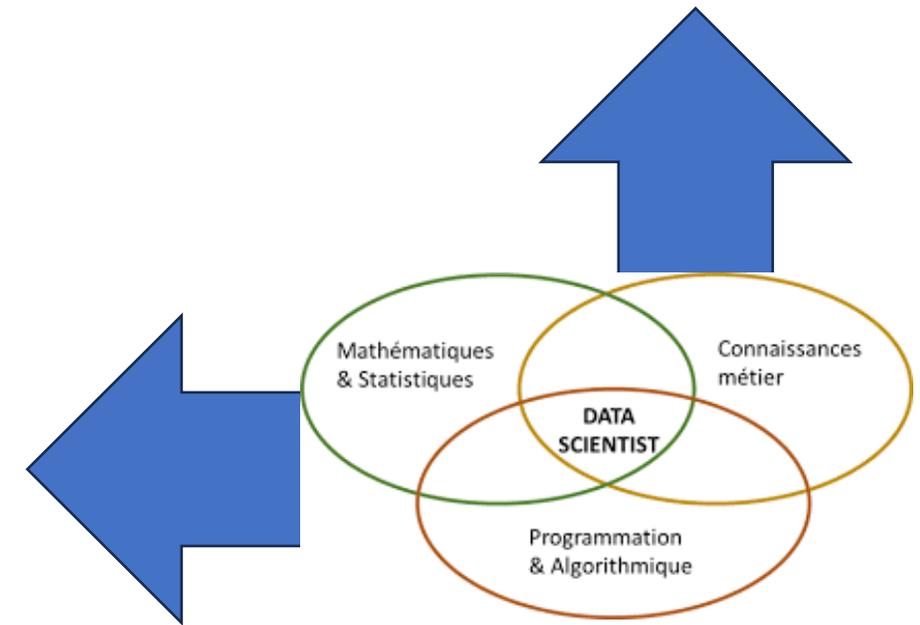

**ILCE**: Integrity - Listening - Commitment - Environment

## Our jobs (1/4):

### 1. Technology

**EDGE Technology** is our branch covering Engineering for IT and Telco infrastructure. In this Digital era, we are providing solution for competitiveness through Business transformation strategy.

We guarantee companies to be agile and innovative in the there process journey. The team EDGE technology is also a group of certified specialist in different domain such as information system, network administration, IA, data scientist, business intelligence, ...

## Our jobs (2/4):

### 2. Trade

The TRADE activity is hosted by our branch **IMDEX** which has 2 main components: Import and export to guarantee sale and distribution. Delivery in the best time and conditions is a constant challenge that we take up in all our operations; Large volume product storage in our conservation units in partnership with « Marché commun » at diamniadio in Dakar suburbs which can thus guarantee refrigeration and/or freezing.

### 3. Energy

With our branch **EDGE energy**, we partnership with Entreprise Industrielle (EI), THE Specialist building tank and pipeline in our geographical region. The construction of gas and oil network for transport and storage is the key activity of EI. The Pipelines and Storage Tank networks meet international standards for the safety and distribution of highly flammable products. Thanks to the in house expertise (Engineering, Civil Engineering, Pipeline and Welding) we provide turnkey oil depots in Africa.

### 4. Finance

Through its so called « **neo-finance** » branch, specializing in the major areas of finance and Investments. Neo-finance supports companies and organizations in the financial engineering and structuring of their projects, in their investment strategy, in the negotiation and raising of financing for the implementation of their investment projects. In fact, our strengths essentially relate to the innovation of our strategies for mobilizing financial resources, to the negotiation of loans under the best market conditions for our clients and to reduced response times to obtain the interest of partners.

- Credits: customer support for the constitution of bankable credit application files with a suitable risk approach for the bank;
- Concerning customers who have a weak financial culture, participate in the structuring of a financial offer allowing the bank to have more market depths (mass affluent).

## Our jobs (4/4):

### 5. Services

**EDGE Services Training:** Through our LeaderIn training institute, we provide personalized leadership training and coaching for decision-makers. The modules are diverse and meet the needs expressed by our aluminas.

**BPO:** Business Process Outsourcing and/or Offloading

**Management:** Leadership -

**Motivation :** Emotional Intelligence

**Business english**

...

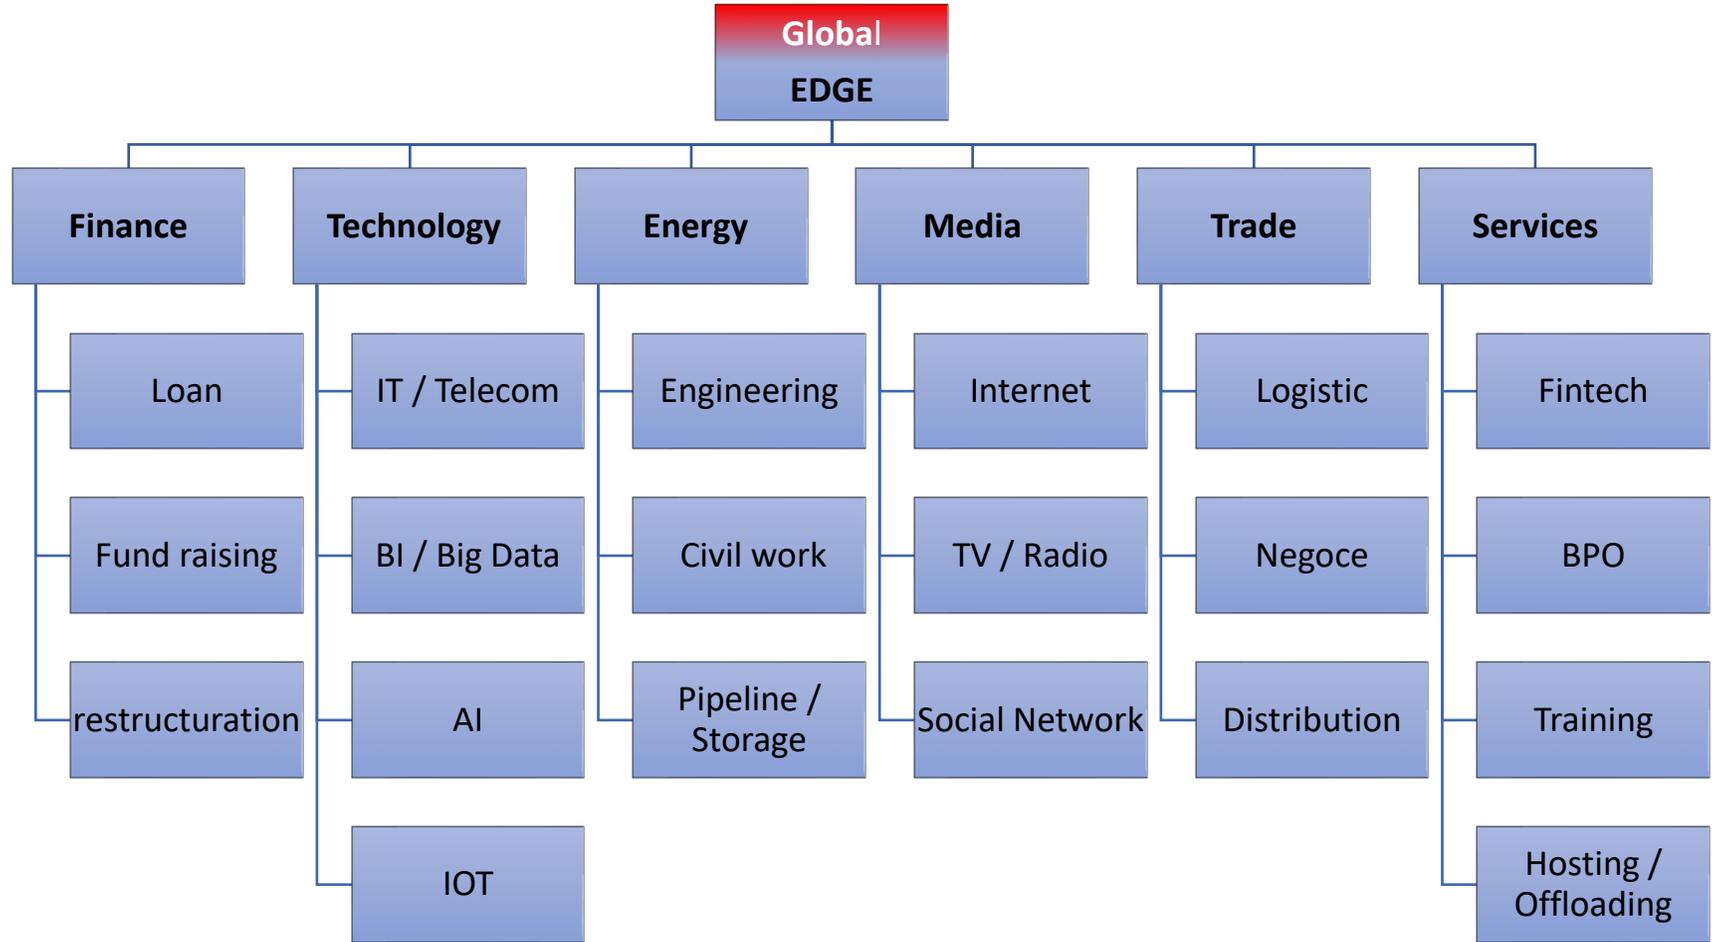

### 6. Media

Through our media group, **neo Media**, we are the leading media group specializing in the economy, finance and the environment. With specialized themes, neo media highlights all activities in finance and the economy in general.

We provide business opportunity for investors and monitor the economy pulse in Sénégal.
